CISCO CALLING

ON-PREMISE

WEBEX CALLING

Calling Behavior

Choose how calls are made within Cisco Webex Teams when dialing a telephone number.

- Cisco Webex Teams**
Select this option if your organization is entitled to dial telephone numbers within the Webex Teams app.
- Webex Calling App**
Select this option to make calls using the Webex Calling app or a third-party app registered with the webexcalltel URI protocol handler.
- Cisco Jabber App**
Select this option to make calls using the Cisco Jabber app. Note: Jabber must be registered with the "ciscotel" protocol handler.
- Third-Party Calling App**
Select this option to make calls using a third-party calling app registered with the tel URI protocol handler.
